Learn More About Leasing a New Toyota at Toyota of Nashua

When you find the ideal vehicle in our expansive selection of new Toyota models here at Toyota of Nashua, the next key piece of the process is determining how you want to approach the purchase. For many drivers around Nashua, leasing is an attractive alternative to financing that creates opportunities to drive new cars more often and spend less on monthly payments. Is leasing a new Toyota vehicle right for you? Learn more about the process of leasing a new Toyota and the benefits that you can enjoy here at our dealership.

How Does Leasing a New Toyota Work?

When you lease a vehicle, you gain use of a new car for the duration of your lease term, which is typically a few years. When your lease is up, you have a few options available to you. You can sign a new lease on a new vehicle, purchase the vehicle that you had been leasing, or simply return your leased vehicle and try a different option, such as financing.

You make monthly payments when you lease a car, just like you would with financing, but you don't own the car at the end of the lease. The trade-off is that those monthly lease payments are generally lower than the monthly loan payments you would make to finance the same car because lease payments are based on a car's depreciation.

Benefits of Leasing a New Toyota

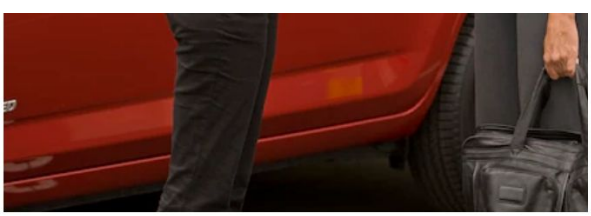

What do you get out of leasing a new vehicle? There are a number of benefits to leasing that make it a popular choice for drivers around Milford, NH and beyond. Here is a quick look at some of the biggest perks:

- **Lower monthly payments:** It typically costs less to lease a car than it does to finance it because lease payments cover a car's depreciation, not its full value. That means that you can enjoy lower monthly payments and even get a better-equipped version of your favorite new Toyota model for less.
- **More opportunities to drive new cars:** Since lease terms last about three years, you can take advantage of more chances to drive new cars. When one lease is up, you can easily transition to a new lease and a new vehicle, allowing you to enjoy that new car smell more often and keep up with the latest tech and safety features.

with the latest tech and safety features.

- **Less of a commitment:** If you aren't sure you want to commit to buying a car, leasing is a great alternative. When your lease is up, you can switch to something else. That way, you aren't saddled with a car that isn't right for you.

Explore Lease Offers at Our Dealership

Leasing already makes it easy to get more out of a new car for less, but you can take things up another notch when you take advantage of our lease offers. Keep an eye out for special opportunities to make the most of your next Toyota lease here at Toyota of Nashua, serving Lowell, MA, and we'll be happy to help you take the next steps when you find something in our selection of offers that appeals to you.

I've had credit issues in the past. Can I get financing?

Can I finance a vehicle without a down payment?
