A New Way to Buy Your Next Toyota

From the dealership or from the couch.

SmartPath lets you do as much online (or as little) as you like. Unlike some other outdated car shopping sites, we show you all the actual inventory on the dealer's lot, with current pricing, so you'll never miss out on a great deal.

Best prices, no surprises.

With SmartPath, you can unlock available savings so the estimate you see online is what you'll pay at the dealership. Before you even contact us, our payment calculator will show you a line-by-line estimate of your purchase to make sure you're happy with it.

Save time, shop smart.

SmartPath puts you in control and saves you time! Don't worry: We'll still be here if you need us. Whether you buy entirely online or come see us at the dealership, with SmartPath, you're just a few simple steps away from driving off in your next Toyota.

Lease vs Buying

No matter where you are on your journey, Schaumburg Toyota wants to help you get where you're going

When choosing between buying and leasing a Toyota, the decision often centers on how long you intend to keep the vehicle. Toyota vehicles are widely recognized for their **strong resale value**, which often makes **buying** more financially advantageous if you plan to keep the car for more than five years. However, **leasing** remains popular for its lower monthly costs and the ability to upgrade models frequently

Reasons to lease:

– No down payment requirements

– The vehicle depreciates at a slower rate and you don't lose out on value

– At the end of your lease, buy the vehicle, trade it in, or swap for a new one

Reasons to buy:

– Earn equity over time, especially after the vehicle is paid off

– Freedom to customize the vehicle any way you see fit

– Not limited by mileage as per the lease agreement

– Full, remaining value of the vehicle is yours when you're ready to trade-in or sell

When You Should Lease

Unless you come into our car dealership knowing right away that you're going to lease a vehicle, your plan is most likely to buy outright. And that's okay! What many fail to understand, however, is that leasing has inherent benefits that buying a brand-new vehicle does not.

With cars you buy, the value drops considerably as soon as you drive away. A lease, on the other hand, does not depreciate the same. You're only responsible for the value as measured during the lease term, so you will pay less a month than if you finance to purchase a vehicle. Our Toyota dealership serving Palatine, IL has plenty of Lease Specials to make it even more affordable.

Of course, some argue you miss out on the equity earned. Yes, that's true, but you're also locked in to owning a vehicle. When the lease is up, you just turn in the old vehicle and walk away, or sign for a new vehicle. It's like having the option to always drive the latest and greatest, for much less of an investment.

You should be aware that there are generally mileage limits on most car leases, so if you plan to do a lot of driving or don't want to have to worry about incurring overage fees, buying might be a better choice than leasing.

When You Should Buy

Maybe driving the same car for years, paying it off, and the freedom that comes from no car payments is appealing? Then buying a new Toyota car might be a better option.

There are other scenarios better for owning a vehicle too. For instance, if you commute long distances for work, it's better to buy outright. You won't be hampered by a mileage cap. Moreover, if you plan on customizing your vehicle at some point, buying provides the flexibility to do so.

What are my Lease End Options?

Whether you leased your Toyota from us or not, we are happy to help you navigate through the choices you have at the end of your lease. The Toyota closed-end lease gives you options that you will certainly find satisfactory! You could:

1. **Turn your vehicle in and Lease or Purchase a new Toyota.** This would allow you to enjoy a brand new vehicle again, with a fresh new warranty, 2 more years of complimentary service, and all of the new safety and comfort features that come with a new Toyota. The disposition fee that is normally associated with turning a lease in will be waived, and you may even have a "Loyalty Rebate" in the transaction to help lower the payment on the new vehicle.

2. **Buyout/ Purchase your Existing vehicle.** Some people choose to buy out their existing vehicle. In this case, we can help with the financing and paperwork, so there is no need to go back and forth to your bank, insurance company and the registry. We can take care of everything, right down to providing new plates if you so desire. We can even offer extended protection plans so your vehicle can remain under a comprehensive warranty.

3. **Turn in your Vehicle**. Sometimes called "Grounding" a vehicle, you would be giving your vehicle back to Toyota Lease Trust. If you are at the end of your lease, we can make this quick and simple, and can even cancel your plates with you right here.

4. **Extend your Current Lease**: **4)** Request a lease extension: Toyota Lease Trust may, at their discretion, approve a request to extend your lease for a period of 3 months past the original maturity date. With the new vehicle shortages in the "post-Covid" years, this became an option many people needed to exercise. We can assist with this process, particularly if you are waiting for a vehicle to come in after you have placed an order with us for a new car or truck.

If you have a Toyota lease coming up, fill out the information below and our Lease Care Specialist will reach out to you to help walk you through the best option for you.
